### Otago University Students' Association Incorporated Statement of Service Performance 31 December 2022

## Statement of Service Performance

The Otago University Students' Association (OUSA) is a Tier 2 registered charity and committed to transparency and accountability. The table below provides a summary of the services provided by OUSA in the past year, including the outputs and outcomes achieved. We are proud of the support and services we have provided to our members and will continue to strive to improve in the future.

### Services Provided:

OUSA provides a wide range of services to students at the University of Otago. Some of the main services provided during the year 2022 included:

- Representation and Advocacy: OUSA advocates for the rights and interests of students on campus and works closely with the university administration, government officials, and other stakeholders to ensure that student voices are heard and that their needs are met.
- Clubs and Societies: OUSA supports a wide range of clubs and societies on campus, providing funding, resources, and support to help students pursue their interests and passions.
- Events and Activities: OUSA organises a wide range of events and activities throughout the year, including
  orientation week events, concerts, and other social and cultural events.
- Support Services: OUSA provides support services to students, including advice and advocacy, mental health and well-being support, and food bank services.
- COVID-19 Support: OUSA provided COVID-19 support services to students in the form of food packs to
  reduce hardship and the transmission of COVID-19 among students.

### Outputs and Outcomes:

OUSA's main outputs and outcomes for the year 2022 are summarized in the table below:

Service	Outputs 2022	Outputs 2021	Outcomes 2022
Annual Student Survey to plan and develop future strategies.	2,230 respondents.	1,798 respondents.	Improved engagement of stakeholders and better delivery of services to them.
Student Support Services – Hardship Grants.	\$19,414.	\$16,146.	Reduced financial stress for students.
Grants to Affiliated Clubs.	\$48,448.	\$52,869.	Enhanced student engagement and sense of community.
Elected Executives Meetings.	24.	33.	Discussed matters affecting various student communities, activities and advocacy.
COVID-19 Care Packs.	\$255,709, 6,851 packs were delivered.	\$0, Nil.	Reduced hardship and spread of COVID-19 transmission among students in FY 2022.

## Otago University Students' Association Incorporated Corporate Governance Statement For the year ended 31 December 2022

### **Corporate Governance Statement**

The Executive is responsible for preparing the financial statements and service performance information and ensuring that they comply with generally accepted accounting practice and fairly present the financial position of the Parent and Economic Entity as at 31 December 2022 and the results of their operations and cash flows for the year ended on that date.

The Executive consider that the financial statements of the Parent and Economic Entity have been prepared using appropriate accounting policies, consistently applied and supported by reasonable judgement and estimates and that all relevant financial reporting and accounting standards have been followed. The Executive consider that the service performance measures are a faithful representation of the Parent and Economic Entity's service performance.

The Executive believe that proper accounting records have been kept which enable, with reasonable accuracy, the determination of the financial position of the Parent and Economic Entity and facilitate compliance of the financial statements with the Financial Reporting Act 2013.

The Executive considers that it has taken adequate steps to safeguard the assets of the Parent and Economic Entity and to prevent and detect fraud and other irregularities. Internal control procedures are also considered to be sufficient to provide a reasonable assurance as to the integrity and reliability of the financial statements.

The Executive is pleased to present the financial report of the Otago University Students' Association Incorporated for the year ended 31 December 2022.

For and on behalf of the Executive.

President

# Independent auditor's report

To the members of Otago University Students Association Incorporated

#### **Our opinion**

In our opinion the accompanying general purpose financial report of Otago University Students Association Incorporated (the Association) and its controlled entity (together, the "Economic Entity") on pages 3 and 7 to 31 presents fairly, in all material respects, the financial position of the Association as at 31 December 2022, and its service performance, financial performance and cash flows for the year ended on that date in accordance with Public Benefit Entity Standards Reduced Disclosure Regime issued in New Zealand (PBE RDR).

### What we have audited

The general purpose financial report which comprises:

- The financial statements, including:
  - the statements of financial position as at 31 December 2022;
  - o the statements of comprehensive revenue and expenses for the year then ended;
  - the statements of changes in net assets/equity for the year then ended;
  - the statements of cash flows for the year then ended; and
  - the notes to the financial statements, which include significant accounting policies and other explanatory information.
- the statement of service performance for the year ended 31 December 2022.

#### **Basis for opinion**

We conducted our audit of the financial statements in accordance with International Standards on Auditing (New Zealand) (ISAs (NZ)) and International Standards on Auditing (ISAs). The audit of the statement of service performance was conducted in accordance with International Standard on Assurance Engagements (New Zealand) 3000 (Revised) (ISAE (NZ) 3000 (Revised)).

Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the general purpose financial report section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Our Independence and Quality Management

We are independent of the Association and Economic Entity in accordance with Professional and Ethical Standard 1 International Code of Ethics for Assurance Practitioners (including International Independence Standards) (New Zealand) (PES 1) issued by the New Zealand Auditing and Assurance Standards Board and the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We apply Professional and Ethical Standard 3 *Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements, which requires our firm to design, implement and operate a system of quality management including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.* 

Other than in our capacity as auditor we have no relationship with, or interests in, the Association or Economic Entity.

### **Other information**

The Executive Members are responsible for the other information. The other information comprises the information included in the Financial Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements and the statement of service performance does not cover the other information and we do not express any form of audit opinion or assurance conclusion thereon.

In connection with our audit of the financial statements and statement of service performance, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements and statement of service performance or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### **Other Matter**

The statement of service performance presented for the corresponding year ended 31 December 2021 is unaudited.

#### Responsibilities of the Executive Members for the general purpose financial report

The Executive Members are responsible, on behalf of the Association, for the preparation and fair presentation of the general purpose financial report in accordance with PBE RDR, and for such internal control as the Executive Members determine is necessary to enable the preparation of the financial statements and statement of service performance that is free from material misstatement, whether due to fraud or error.

The Executive Members are also responsible, on behalf of the Association, for identifying performance measures and/or descriptions to report in the general purpose financial report that are a faithful representation of the service performance and that are relevant, understandable, timely, comparable and verifiable.

In preparing the general purpose financial report, the Executive Members are responsible for assessing the Economic Entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Executive Members either intend to liquidate the Economic Entity or to cease operations, or have no realistic alternative but to do so.

### Auditor's responsibilities for the audit of the general purpose financial report

Our objectives are to obtain reasonable assurance about whether the general purpose financial report, as a whole, is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (NZ), ISAs or ISAE (NZ) 3000 (Revised) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this general purpose financial report.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the general purpose financial report, including performing procedures to obtain evidence about and evaluating whether the statement of service performance is a faithful representation of the service performance and that is relevant, understandable, timely, comparable and verifiable.

As part of our audit, we perform procedures to obtain evidence about and evaluate whether the reported outcomes and outputs, and quantification of the outputs to the extent practicable, are relevant, reliable, comparable and understandable.

A further description of our responsibilities for the audit of the general purpose financial report is located at the External Reporting Board's website at:

https://www.xrb.govt.nz/assurance-standards/auditors-responsibilities/audit-report-13

This description forms part of our auditor's report.

#### Who we report to

This report is made solely to the Association's members, as a body. Our audit work has been undertaken so that we might state those matters which we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Association and the Association's members, as a body, for our audit work, for this report or for the opinions we have formed.

The engagement partner on the audit resulting in this independent auditor's report is Elizabeth (Adri) Smit.

# 1 Statement of Accounting Policies For The Year Ended 31 December 2022

### 1.1 Reporting Entity

Otago University Students' Association ('the Association') is a registered charity under the Charities Act and an Incorporated Society. The Association is a public benefit entity for the purposes of financial reporting in accordance with the Financial Reporting Act (2013). These financial statements for the year ended 31 December 2022 comprise the Association and its controlled entity (together referred to as the 'Economic Entity') and the Association as 'Parent'.

### 2 Summary of Significant Accounting Policies

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to the opening balance sheets and reporting period to 31 December 2022, unless otherwise stated.

### 2.1 Basis of Preparation

The financial statements have been prepared on the going concern basis, and the accounting policies have been applied consistently for the periods presented in these financial statements. Certain comparatives have been restated to align with current period presentation.

### Statement of Compliance

The financial statements have been prepared in accordance with New Zealand Generally Accepted Accounting Practice ("NZ GAAP"). They comply with Public Benefit Entity International Public Sector Accounting Standards ("PBE IPSAS") and other applicable Financial Reporting Standards, as appropriate for Tier 2 not-for-profit public benefit entities, for which all reduced disclosure regime exemptions have been adopted.

The Economic Entity qualifies as a Tier 2 reporting entity as, for the two most recent reporting periods it has had between \$2m and \$30m operating expenditure.

The consolidated financial statements have been approved by the Executive on  $[\mathcal{F}/$ 

### Measurement Base

The financial statements have been prepared on a historical cost basis.

### Functional and Presentation Currency

The financial statements are presented in New Zealand dollars and all values are rounded to the nearest dollar (\$). The functional currency is New Zealand dollars.

### 2.2 Basis of Consolidation

### **Controlled Entities**

The consolidated financial statements incorporate the assets and liabilities of all controlled entities of Otago University Students' Association Incorporated as at 31 December 2022 and the results of all controlled entities for the year then ended. Otago University Students' Association Incorporated and its controlled entities together are referred to in these financial statements as the Economic Entity or the consolidated entity.

Controlled entities are all those entities over which the Economic Entity has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Parent controls another entity.

Controlled entities which form part of the Economic Entity are consolidated from the date on which control is transferred to the Parent. They are de-consolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Economic Entity. The consideration transferred for the acquisition of a subsidiary is the fair value of the assets transferred, the liabilities incurred and the equity interest issued by the Economic Entity. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Acquisition-related costs are expensed as incurred.

# 2 Summary of Significant Accounting Policies (continued)

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. On an acquisition-by-acquisition basis, the Economic Entity recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net assets.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisitiondate fair value of any previous equity interest in the acquiree over the fair value of the Economic Entity's share of the identifiable net assets acquired is recorded as goodwill. If this is less than the fair value of the controlled entity of the subsidiary acquired in the case of a bargain purchase, the difference is recognised directly in the statements of comprehensive revenue and expense.

### Joint Ventures

Joint ventures are those entities over whose activities the Entity has joint control, established by a binding agreement and requiring unanimous consent for strategic financial and operating decisions.

Joint ventures that are structured in a separate vehicle are classified jointly-controlled-entities and are accounted for using the equity method.

The financial statements include the Entity's share of the surplus or deficit and other comprehensive revenue and expense of its equity accounted jointly-controlled-entities, after adjustments to align the accounting policies with those of the Economic Entity and Parent, from the date that significant influence or joint control commences until the date that significant influence or joint control commences until the date that significant influence or joint control commences until the date that significant influence or joint control commences until the date that

When the Entity's share of losses exceeds its interest in its jointly-controlled-entities, the carrying amount of the investment, including any long term investments that form part thereof, is reduced to zero, and the recognition of further losses is discontinued except to the extent that the Entity has an obligation or has made payments on behalf of the investee.

### 2.3 Revenue

Revenue is recognised when the amount of revenue can be measured reliably and it is probable that economic benefits will flow to the Economic Entity, and measured at the fair value of consideration received or receivable.

The following specific recognition criteria in relation to the Economic Entity's revenue streams must also be met before revenue is recognised.

### (i) Revenue from Exchange Transactions

### Membership Fees and Subscriptions

Revenue is recognised over the period of the membership or subscription (usually 12 months). Amounts received in advance for memberships or subscriptions relating to future periods are recognised as a liability until such time that period covering the membership or subscription occurs. Membership and subscription fees are included in service revenue.

### Sale of Goods

Revenue from the sale of goods in the course of ordinary activities is measured at the fair value of the consideration received or receivable and net of returns.

Revenue is recognised when the significant risks and rewards of ownership have been transferred to the customer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods (beer sales, book sales, etc.), and the amount of revenue can be measured reliably.

If it is probable that discounts will be granted and the amount can be measured reliably, then the discount is recognised as a reduction of revenue as the sales are recognised.

(continued)

# 2 Summary of Significant Accounting Policies (continued)

### Rendering of Services

Service income is recognised as revenue throughout the period of delivery of the service. Service income includes an annual agreed levy between the University of Otago and the Economic Entity. This is based on University of Otago's estimate of the services they employ the Economic Entity to provide over a year. Service levy income is recognised as revenue as received unless there are unfulfilled conditions under the agreement in which case the amount relating to the unfulfilled conditions is recognised as a liability and released to revenue as the conditions are fulfilled.

### (ii) Revenue from Non-Exchange Transactions

Non-exchange transactions are those where the Economic Entity receives an inflow of resources (i.e. cash and other tangible or intangible items) but provides no (or nominal) direct consideration in return.

With the exception of services-in-kind, inflows of resources from non-exchange transactions are only recognised as assets where both:

- It is probable that the associated future economic benefit or service potential will flow to the entity, and
- Fair value is reliably measurable.

The following specific recognition criteria in relation to the Economic Entity's non-exchange transaction revenue streams must also be met before revenue is recognised.

#### Grants and Donations

The recognition of non-exchange revenue from Grants and Donations depends on the nature of any stipulations attached to the inflow of resources received, and whether this creates a liability (i.e. present obligation) rather than the recognition of revenue.

Stipulations that are 'conditions' specifically require the Economic Entity to return the inflow of resources received if they are not utilised in the way stipulated, resulting in the recognition of a non-exchange liability that is subsequently recognised as non-exchange revenue as and when the 'conditions' are satisfied.

Stipulations that are 'restrictions' do not specifically require the Economic Entity to return the inflow of resources received if they are not utilised in the way stipulated, and therefore do not result in the recognition of a non-exchange liability, which results in the immediate recognition of non-exchange revenue.

### Dividend and Interest Revenue

Dividend revenue from investments is recognised when the shareholders' rights to receive payment have been established. Interest revenue is recognised on a time-proportionate basis using the effective interest rate method.

The effective interest rate is the rate that discounts estimated future cash receipts through the expected life of the financial asset, or where appropriate a shorter period, to the net carrying amount of the financial asset.

The effective interest rate is used to calculate the amortised cost of a financial asset and to allocate interest income over the relevant period.

### 2.4 Foreign Currency Translations

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statements of Comprehensive Revenue and Expense.

### 2.5 Income Tax

The Parent and Economic Entity are exempt from tax under the Income Tax Act 2007. The Parent and Economic Entity are registered charities with the Charities Commission and have approved charitable status with the Inland Revenue Department.

# 2 Summary of Significant Accounting Policies (continued)

### 2.6 Leases

Operating leases are leases in which a significant portion of the risks and rewards are retained by the lessor. Lease payments are recorded as expenses in the statements of comprehensive revenue and expense.

### 2.7 Cash and Cash Equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions and other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

### 2.8 Trade and Other Receivables

Accounts receivables are recognised initially at fair value and subsequently measured at amortised cost, less provision for doubtful debts. Collectability of receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off. A provision for doubtful receivables is established when there is objective evidence that the Parent and Economic Entity will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows,

### 2.9 Inventory

Inventories are stated at the lower of cost and net realisable value. Cost is calculated on an average basis and includes expenditure incurred in acquiring inventories and bringing them to a location and condition available for sale. No inventories are specifically pledged as security for liabilities. Net realisable value is the estimated selling price in the ordinary course of business less the estimated cost necessary to make the sale, exchange or distribution and after allowances are made for obsolescence.

### 2.10 Property, Plant and Equipment

Property, plant and equipment for the parent is initially measured at cost and subsequently stated at historical cost less depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items plus the value of other directly attributed costs which have been incurred in bringing the assets to the location and condition necessary for their intended service.

The Economic Entity has measured property, plant and equipment at historical cost less accumulated depreciation and any impairment losses.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Parent and Economic Entity and the cost of the item can be measured reliably. All repairs and maintenance are charged to the statements of comprehensive revenue and expense during the financial period in which they are incurred. Land is not depreciated.

Work in progress is recognised at cost less impairment and is not depreciated. Costs includes all expenses directly related to specific contracts. Building work in progress is not depreciated until commissioned.

### (i) Depreciation

Depreciation of property, plant and equipment, other than freehold land and capital work in progress is calculated to write off the cost of the assets over their estimated useful lives at the following rates

Class of Asset Depreciated	Depreciation Rates
Freehold Buildings	4% Diminishing Value
Freehold Building Alterations	10% - 40% Diminishing Value
Commercial Land and Buildings	2% - 7% Straight Line

## 2 Summary of Significant Accounting Policies (continued)

Fixtures and Fittings	4% - 50% Diminishing Value
Plant and Equipment	4% - 67% Diminishing Value
Motor Vehicles	25% - 30% Diminishing Value

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the statements of comprehensive revenue and expense.

### 2.11 Intangible Assets

Intangible assets are initially recorded at cost. Where acquired in a business combination, the cost is the fair value at the date of acquisition.

Subsequent to initial recognition, intangible assets with finite useful lives are recorded at cost, less any amortisation and impairment losses and are reviewed annually for impairment losses. Amortisation of intangible assets is provided on a straight-line or diminishing value basis that will write off the cost of the intangible asset to estimated residual value over their useful lives. Assets with indefinite useful lives are not amortised but are tested, at least annually, for impairment and are carried at cost less accumulated impairment losses.

Where an intangible asset's recoverable amount is less than its carrying amount, it will be reported at its recoverable amount and an impairment loss will be recognised. Impairment losses resulting from impairment are reported in the statements of comprehensive income and expense.

Realised gains and losses arising from the disposal of intangible assets are recognised in the statements of comprehensive revenue and expense in the year in which the disposal occurs.

Intangible assets comprise:

#### Trademark

Acquired trademarks are capitalised based on the costs incurred to acquire and bring to use the trademark. Costs are amortised using the straight line method over their estimated useful lives (not exceeding 20 years).

#### Software Acquisition and Development

Acquired computer software licenses are capitalised on the basis of the costs incurred to acquire and bring to use the specific software.

Costs that are directly associated with the development of software for internal use are recognised as an intangible asset. Direct costs include the software development employee related costs and an appropriate portion of relevant overheads.

Staff training costs are recognised as an expense when incurred.

Costs associated with maintaining computer software are recognised as an expense when incurred.

Costs associated with the development and maintenance of the Entity's website are recognised as an expense when incurred.

### Amortisation

The carrying value of an intangible asset with a finite life is amortised on a straight-line basis over its useful life. Amortisation begins when the asset is available for use and ceases at the date that the asset is derecognised. The amortisation charge for each period is recognised in the surplus or deficit.

The useful lives and associated amortisation rates of major classes of intangible assets have been estimated as follows:

Class of Intangible Asset	Estimated Useful Life	Amortisation Rates
Computer software	2 - 5 years	20% - 50% Diminishing Value
Trademarks	10 - 20 years	5% - 10% Straight Line

## 2 Summary of Significant Accounting Policies (continued)

### 2.12 Impairment of Non-Financial Asset

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the assets carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

### 2.13 Investment Property

Properties leased to third parties under operating leases are classified as investment property unless the property is held to meet service delivery objectives, rather than to earn rentals or for capital appreciation. Property held to meet service delivery objectives is classified as property, plant, and equipment.

Investment property is recognised at historical cost less subsequent depreciation. Historical costs included expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Parent and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the profit or loss component of the statement of comprehensive revenue and expense during the financial period in which they are incurred.

Depreciation on investment property is calculated using the straight line method, the rates used are:

Class of Asset Depreciated De	preciation Rates
-------------------------------	------------------

Investment property 2 - 7% Straight Line

The assets' residual values, useful lives and depreciation methods are reviewed and adjusted, if appropriate, at the end of each reporting period.

Gains or losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within the profit or loss component as separate lines on the statement of comprehensive revenue and expense.

### 2.14 Trade and Other Payables

Accounts payables and other payables represent liabilities for goods and services provided to the Parent and Economic Entity prior to the end of financial year which are unpaid at balance date. The amounts are unsecured and are usually paid within 30 days of recognition. Accounts payables are recognised initially at fair value and are subsequently measured at amortised cost using the effective interest method.

### 2.15 Accruais

Accrued expenses are costs incurred but not yet paid. This includes accounting and audit fees incurred and not yet paid.

### 2.16 Investments in Controlled Entities

Investments in controlled entities are recorded in the statements of financial position of the Parent at cost less impairment losses.

### 2.17 Employee Entitlements

Liabilities for wages and salaries, including non monetary benefits and annual leave that is to be settled within 12 months of the reporting date are recognised as current liabilities. The current liabilities are in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

### 2.18 Goods and Services Tax

The statements of financial performance have been prepared so that all components are stated exclusive of GST. All items in the statements of financial position are stated net of GST, with the exception of receivables and payable, which include GST invoiced.

### 2 Summary of Significant Accounting Policies (continued)

### 2.19 Statement of Cash Flows

The statements of cash flows are prepared exclusive of Goods and Services Tax (GST), which is consistent with the method used in the statements of financial performance. Cash and cash equivalents comprise cash on hand and demand deposits, and other short term, highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value and includes all call borrowing such as bank overdrafts used by the Economic Entity as part of their day-to-day cash management.

The cash flows are classified into three sources:

#### **Operating Activities:**

'Operating activities' represents all transactions and other events that are not investing or financing activities, and includes receipts and repayments of occupancy advances.

#### Investing Activities:

'Investing activities' are those activities relating to the acquisition and disposal of property, plant & equipment, investments, intangible assets and development.

### Financing Activities:

'Financing activities' are those activities relating to changes in the debt capital structure of the Economic Entity.

### 2.20 Use of Judgement and Accounting Estimates

The Economic Entity measures Property, Plant and Equipment (2.10) and the Parent measures Investment Property (2.13) at cost less any depreciation and impairment. Impairment indicators were identified due to the redevelopment running over budget upon completion in December 2022. Where an impairment indicator is identified an impairment test is required by comparing fair value to the current carrying value. An independent valuation from Tay & Tay was obtained for the property at 378 Great King Street. The best evidence of fair value was deemed to be the capitalisation of income approach. The calculation uses cash flow projections based on financial budgets approved by management. Income was capitalised at the following rates based on observable market inputs: Commercial Property - 6.50%

Residential Property - 6.00%

The valuation resulted in an impairment of the property of \$1.74 million which has been recognised in accordance with the accounting policies.

### 2.21 Investments

The Parent and Economic Entity recognise financial assets on the date that they become party to the contractual agreement.

Subsequent to initial recognition all financial assets are measured at fair value. Gain or losses arising from the change in these fair values are included in the statements of comprehensive revenue and expense.

The fair values of financial assets that are traded in active markets are based on quoted market prices at the Statement of Financial Position date. The quoted market price used for financial assets is the current bid price.

### 2.22 Financial Instruments

The Parent and Economic Entity initially recognises financial instruments when the Economic Entity becomes a party to the contractual provisions of the instrument.

The Economic Entity derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Economic Entity is recognised as a separate asset or liability.

The Economic Entity derecognises a financial liability when its contractual obligations are discharged, cancelled, or expire.

# 2 Summary of Significant Accounting Policies (continued)

The Economic Entity also derecognises financial assets and financial liabilities when there have been significant changes to the terms and / or the amount of contractual payments to be received / paid.

Financial assets and liabilities are offset and the net amount presented in the statements of financial position when, and only when, the Economic Entity has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

The Economic Entity classifies financial assets into the following categories: loans and receivables, and available-for-sale assets.

The Economic Entity classifies financial liabilities into the following category: Amortised cost.

Financial instruments are initially measured at fair value, plus for those financial instruments not subsequently measured at fair value through surplus or deficit, directly attributable transaction costs.

Subsequent measurement is dependent on the classification of the financial instrument and is specifically detailed in the accounting policies below.

#### Loans and Receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market.

Loans and receivables are subsequently measured at amortised cost using the effective interest method less any impairment losses.

Loans and receivables comprise cash and cash equivalents, trade and other receivables and loan receivables.

Cash and cash equivalents represent highly liquid investments that are readily convertible into a known amount of cash with an insignificant risk of changes in value, with maturities of 3 months or less.

### Available-For-Sale Financial Assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for-sale or are not classified in any of the above categories of financial assets.

Available-for-sale financial assets are subsequently measured at fair value with gains or losses (other than foreign exchange gain or losses) recognised in other comprehensive revenue and expense.

Upon derecognition, the accumulated gain or loss within net assets / equity is reclassified to surplus or deficit.

Available-for-sale financial assets comprise portfolio investments.

### Amortised Cost Financial Liabilities

Financial liabilities classified as amortised cost are non-derivative financial liabilities that are not classified as fair value through surplus or deficit financial liabilities.

Financial liabilities classified as amortised cost are subsequently measured at amortised cost using the effective interest method.

Financial liabilities classified as amortised cost comprise trade and other payables, ANZ bank overdraft, and GST payable.

### Impairment of Non-Derivative Financial Assets

A financial asset not subsequently measured at fair value through surplus or deficit is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset, and that the loss event(s) had an impact on the estimated future cash flows of that asset that can be estimated reliably.

Objective evidence that financial assets are impaired includes default or delinquency by a counterparty, restructuring of an amount due to the Economic Entity on terms that the Economic Entity would not consider otherwise, indications that a counterparty or issuer will enter bankruptcy, adverse changes in the payment status of borrowers or issuers in the Economic Entity, economic conditions that correlate with defaults or the disappearance of an active market for a security. In addition, for an equity security classified as an available-for-sale financial asset, a significant or prolonged decline in its fair value below its cost is objective evidence of impairment.

### 2 Summary of Significant Accounting Policies (continued)

### Financial Assets Classified as Loans and Receivables

The Economic Entity considers evidence of impairment for financial assets measured at amortised cost (loans and receivables) at both a specific asset and collective level.

All individually significant assets are assessed for specific impairment. Those found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified.

Assets that are not individually significant are collectively assessed for impairment by grouping together assets with similar risk characteristics.

In assessing collective impairment the Economic Entity uses historical trends of the probability of default, the timing of recoveries and the amount of loss incurred, adjusted for management's judgement as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by historical trends.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in surplus or deficit and reflected in an allowance account against loans and receivables. Interest on the impaired asset continues to be recognised.

When an event occurring after the impairment was recognised causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through surplus or deficit.

### Financial Assets Classified as Available-For-Sale

Impairment losses on available-for-sale financial assets are recognised by reclassifying the losses accumulated in the fair value reserve in net assets/equity to surplus or deficit.

The cumulative loss that is reclassified from net assets / equity to surplus or deficit is the difference between the acquisition cost, net of any principal repayment and amortisation, and the current fair value, less any impairment loss recognised previously in surplus or deficit.

Changes in impairment provisions attributable to application of the effective interest method are reflected as a component of interest income. If, in a subsequent period, the fair value of an impaired available-for-sale debt security increases and the increase can be related objectively to an event occurring after the impairment loss was recognised, then the impairment loss is reversed, with the amount of the reversal recognised in surplus or deficit. However, any subsequent recovery in the fair value of an impaired available-for-sale equity security is recognised in other comprehensive revenue and expense.

### 2.23 Changes in Accounting Policies

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements and have been applied consistently by the Economic Entity, except otherwise stated.

During the period, the Economic Entity adopted the following new standard for the first time

PBE IPSAS 41 - Financial Instruments

There was no material effect on the current or prior periods from the adoption of this standard.

PBE FRS 48 - Service Performance Reporting

PBE FRS 48 - Service Performance Reporting requires the Economic Entity to provide information on service performance. The standard requires that the Economic Entity report service performance against measures that are relevant, reliable, and understandable. The standard also requires that the organisation provide a statement of service performance in its annual report.

### 16 Related party transactions (continued)

#### Key management personnel compensation

The Economic Entity and Parent have a related party relationship with their key management personnel. Key management personnel include the directors and senior management.

	Economic Entity		Parent	
	Actual 2022	Actual 2021	Actual 2022	Actual 2021
<b>Council members</b> Number of persons recognised as key management personnel Full-time equivalent members Remuneration	33 <u>18</u> \$ <u>1,541,135</u>	32 <u>20</u> \$ <u>1,624,131</u> \$	23 14 1,192,810 \$	24 14 

### 17 Covid 19

On March 11, 2020, the World Health Organization declared the outbreak of a coronavirus (COVID-19) a global pandemic. Since then, the New Zealand Government has implemented a range of domestic restrictions and border controls to limit the spread of the virus.

The major impacts on the Economic Entity's financial statements due to COVID-19 was on the restrictions of events during the 2022 year. This caused a number of events to be cancelled and the loss of revenue from the sale of goods (Note 3: \$2,929,523 compared to \$3,849,865). The Economic Entity received \$19,672 in wages subsidies, \$390,700 in event support payments and \$291,385 for the cancellation of Orientation in the 2022 year due to the loss of revenue because of event restrictions.

The UBS redevelopment project continued throughout 2022 and was delayed by five months from the initial opening date of April 2022 to September 2022 and the associated apartments May 2022 to December 2022. This has led to the loss of rents for the delayed period.

It is a non-adjusting event and the Economic Entity has assessed the likely impact of COVID-19 on the Economic Entity and have concluded that, for the 12 months from the signing of the financial statements, COVID-19 will not impact the ability of the Economic Entity to continue operating. That conclusion has been reached because the Economic Entity applied for and was granted the support from the New Zealand Government Events Transition Support Payment Scheme.

While it is difficult to predict what the trading environment will be like for the foreseeable future the Economic Entity has the ability to review and restructure its operating costs to meet demand levels and delay capital projects as necessary, as well as utilising cash reserves. Additionally, the Economic Entity is considering potential bank funding options. The executive still believes the going concern assumption is appropriate based on review of cash flow forecasts and other financial information.

### 18 Events occurring after the balance date

The Otago University Students' Association (OUSA) Executives have commenced a restructuring of the organisation with the formation of OUSA Commercial Limited on the 14 December 2022 and OUSA Holdings Limited 30 November 2022. The new entities have been created for operational purposes with no change in ultimate control. The entities have submitted applications to the Charities Office for registration as registered charities before further progress of the restructure is undertaken

There were no other events occurring subsequent to balance date which require adjustment to the financial statements (2021: Nil).
